

KAVEH GLASS Silver Mirror Glass

KAVEH GLASS INDUSTRIAL GROUP

Silver Mirror Glass

Description

KAVEH GLASS SILVER MIRROR is produced by coating a silver film, a copper film and two layers of waterproof paint on the back of float glass, which is also called Clear Mirror glass. It prevents environmental heavy metal contamination by using non-lead materials.

Features

- Clear and real images
- No distortion
- Back paint resists against acid and moisture.
- Can be used for more than 20 years in case of indoor use

Applications

- Decoration and furnishment
- Bathroom mirrors
- Rearview mirror of automobiles
- Primary mirror for manufacturing safety mirror, shaped mirror and beveled mirror
- Fitness clubs / Gym mirror
